CANNA THE PRESIDENT The Last Word in Red-Flowered Green-Leaved Cannas.

4 Grand Cannas

That Stand Out Above All Others

The President. 4 ft. This immense new flaming scarlet has come into wider use more quickly than any other Canna. It is an offspring of the famous Firebird. The President leads the red varieties in the quality and also the quantity of its bloom. The flowers are 7 inches across: the individual petals are firm and long standing, and do not burn, and the trusses stand up stiff on strong stems. The foliage is rich green and burn-proof in the hottest weather	100	Per 1000
King Humbert. 4 ft. This remarkable Gold Medal Canna has been the sensation of the past ten years and is the greatest favorite today. It is a cross between the orchid-flowering and the French, or Crozy, type, combining the large flowers of the one with the free-blooming character of the other, with handsome, broad, tropical foliage. Scarlet flowers; bronze leaves	4.00	35.00
Yellow King Humbert. 4 ft. An orchid-flowering sport of the well-known King Humbert. Has the same habit of growth as its parent; foliage a very dark green. with flowers measuring 5 to 7 inches across; individual petals measuring 3 to 3½ inches in diameter. Color of flower a deep rich yellow. softly spotted and blotched with bright red. Some plants will occasionally give a scarlet or scarlet striped flower, which we consider an improvement rather than a defect	5.00	40.00
Mrs. Alfred Conard. One of the very best Cannas in commerce today. The large, exquisitely shaded salmon-pink flowers are produced in great abundance on robust, upright stalks. We consider this as superior to all pink flowered Cannas. 4 ft.

Dahlias

A. B. C. "Supreme" Quality

(TRUE TO NAME)

There may be other flowers with as gorgeous colorings, with as delicate tints and shadings, with as great a diversity of form and habit, but where can be found another possessing all these valuable traits that will grow in every clime and under such varied conditions as the Dahlia? We furnish strong divided tubers of the better varieties. Such as are contained in this list are in a class by themselves in the way of furnishing desirable cut-flower material for the late summer and fall season.

> Three roots of a variety at dozen rate Twenty-five roots of a variety at 100 rate

LILIUM LONGIFLORUM GIGANTEUM, MOUNTAIN GROWN

Fritz Bahr Says"-

RUBRUM OR MAGNIFICUM LILIES

"Did you ever plant too many? For the average florist it means just this: He can get along without Rubrum Lilies, even not miss them. On the other hand, those who once get into the habit of using them usually find them such a profitable and at the same time easily handled crop that they try each year to prolong the flowering period, which with the help of cold storage bulbs is not hard to do. Every florist with a retail trade should grow Rubrum Lilies. There is nothing finer for decorative work, for the corsage or the floral design. A plant grown in a pot makes a showy plant, and if not sold as such will frequently furnish you with flowers for three weeks from the time the first flower is ready to be cut until the last bud begins to open. The farther away you are located from the larger cut flower markets, the more valuable are Rubrum Lilies in your own establishment, the more necessary it is for you to try to have a few plants to cut from. To plant cold storage bulbs now into 5-in. or 6-in. pots is about all the work you will have with them, outside of watering. They will grow almost anywhere in or outdoors, and bloom in late summer. Try this for a change: Plant in 6-in. pots; let the plants come along in a cool house. About May 15 take them outdoors and plant pot and all in a bed or coldframe, deep enough to cover the top of the pot about 4 inches. When in flower use the individual blossoms, or if you plant out leave them out all winter. Every plant will flower again the next year and better than before."

Mr. Bahr is author of "Commercial Floriculture" and for the past 40 years a Successful Commercial Grower.

Japanese Lily Bulbs

A. B. C. "Supreme" Quality OUR LEADING SPECIALTY

With our personal representation at the source of supply we hold a prominent position in the Lily Bulb market which is well known to the trade, and we shall spare no expense to insure our continuation as leaders in this important Florists' line. The various Lily types offered are produced by experienced growers and under high cultivation—particular attention being given to grading of the bulbs.

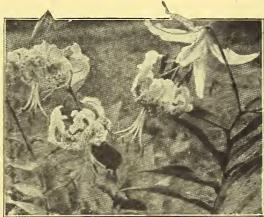

NOTE: We aim to supply Japanese Lilies from cold storage the year around. Arrange for your possible needs now (and avoid possible disappointment later on, since supply of first-class stock is none too large). We will forward when desired.

Plant Lily Bulbs on first and fifteenth of each month. Many of our customers follow this plan and find it quite profitable.

A. B. C. New Giant Dahlia-Flowered **ZINNIAS**

We offer the following choice named varieties as well as a very good mixture.

Exquisite. Light rose with center deep rose. Crimson Monarch. Beautiful red shade.

Scarlet Flame. Large bright scarlet with a delightful blending of orange throughout the petal. This is not a bicolor.

Oriole. Orange and gold bicolor, as beautiful as the bird it is named after.

Dream. A fine deep lavender turning to purple.

Mallow Purple. A new desirable shade in Zinnias.

Polar Bear. A very large pure white. The best white yet seen in Zinnias.

Illumination. Similar to Exquisite but a striking self-color of deep rose.

Giant Attraction. A distinct shade of brick red; forms into an immense ball of color when in full bloom.

Meteor. Rich glowing deep red.

Sunrise. A combination of pleasing apricot shades, changing to buff as it ages.

Buttercup. An immense, deep creamy yellow.

Canary Bird. A delicate shade of primrose.

Price of each of above: Trade Pkt., 50c; large tr. pkt., 75c; per 1/8 oz., \$2.00; per 1/4 oz., \$3.50.

SPECIAL OFFER-One large tr. pkt., each of any seven varieties selected from above for \$5.00.

Special Mixture—Price tr. pkt., 50c; ½ oz., 75c; per ¼ oz., \$1.35; per oz., \$5.00.

NOTE! As supply of above in named varieties is as yet limited, we suggest early orders for same.

A. B. C. NEW GIANT DAHLIA-FLOWERED

ZINNIAS

The Aristocrats of Annuals for Cut Flowers

Obtainable this year in named varieties for the first time and as far in advance over the previously known Zinnias as Spencers are over the grandiflora type of Sweet Peas. The past season a moderate number of these Zinnias were produced from mixed seed and wherever shown they created the greatest admiration, especially in the Chicago cut-flower market. Now that these most desirable Zinnias are obtainable in separate colors it will, we believe, tend to increase the present wonderful popularity of this remarkable flower and we predict a great cut-flower demand for this

New Dahlia-Flowered Type

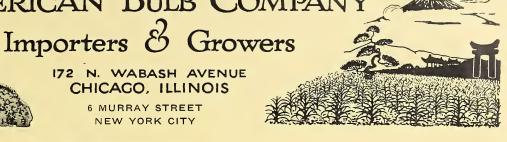

The black and white production illustrated on this page shows type and size, including the immense depth of petals, but can convey no adequate idea of the richness of the colors. Rich rose, glowing orange, flaming scarlet, clear yellow - there is a Dahlia-Flowered Zinnia to harmonize with every color scheme. No wonder, then, that Florists are eager to add them to their collections of cut flowers for summer and fall. Zinnias are of the easiest culture of all annuals, and bloom over a longer period than any other annual. They than any other annual. thrive and bloom throughout the hottest days of summer, lending that touch of color which is so desirable and maintaining their splendor until the advent of frost.

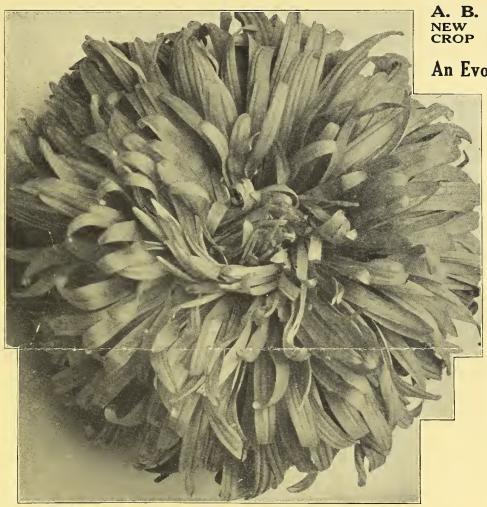

The above new Zinnias are recommended for growing under glass for cutting (treat same as Calendulas) as well as for outdoor planting.

NEW LARGE FLOWERING CUT-FLOWER ASTER CHICAGO GIANT BEAUTY

A. B. C. "Supreme" Quality CROP Flower Seeds

An Evolution in Cut Flower Asters Chicago Giant Beauty (ILLUSTRATED OPPOSITE)

This new "Quality Aster" is somewhat of the Crego and Beauty type but is practically non-lateral, producing flowers of immense size without disbudding and of wonderful substance on strong, stiff stems 20 to 24 inches long, acclaimed by Chicago wholesale and retail florists the past season as the ideal of cuiflower Asters.

Colors, DEEP ROSE, PEACH BLOSSOM, LIGHT BLUE, PURPLE, also CHOICE MIXED. Price each of above, trade pkt., 50c; ¼ oz., \$1.50; per oz., \$5.00.

Ball's Improved White Aster

Inasmuch as a good pure white type of Chicago Giant Beauty has not as yet been perfected, we recommend Ball's Improved White in order to supply a pure white Aster that will go to complete the combination of colors and shades most desirable and which will compare favorably with the above named wonderful strain.

BALL'S IMPROVED WHITE ASTER. BALL'S IMPROVED WHITE ASTER. A handsome plant is this remarkable Aster, which resembles more than anything else a well grown Chrysanthemum. Being of the late branching type, it is especially valuable as a cut flower, its long stems supporting the large double flowers perfectly. It is indeed an American Aster of great merit. This grand white Aster is in great favor in the Chicago market.

Tr. pkt., 50c; 1/4 oz., \$1.00; oz., \$3.50.

Sweet Peas

Early Flowering Type
A Leading Specialty with us and we now supply many of the largest growers in this country

All of the following varieties are the Winter-Flowering Spencer types and can be grown indoors or outdoors. They invariably produce more and better flowers outdoors than the old late Spencers, because they come into flower 3 to 4 weeks earlier, before the hot weather sets in. Plant after "Mum" crop and get a full crop for Easter. Plant in cool frames or outdoors just before the freezing begins and get a full crop in May for Decoration Day. Plant out of doors in the Spring and they will bloom early in June.

The varieties mentioned are finding the varieties mentioned are inding great favor this season in the principal markets of the country. However, we can supply some fifty other standard sorts and shall be glad to mail complete list on application.

Zvolanek's Rose (Selected True Strain). This is the very best commercial variety to date. Beautiful self-rose. Holds its color to the last and is free bloomer. Per oz., \$1.50; ¼ lb., \$4.00; 1 lb., \$15.00.

w supply many of the largest growers ountry
Bluebird. This is a charming shade of blue. The flowers are arranged on long stems—much the best of all blue sorts. Per oz., 75c; ¼ lb., \$2.50; 1 lb., \$8.00.
Ball's Columbia, Color pink and white. Very early and one of the best florist varieties, like Christmas White and Pink. Per oz., \$1.25; ¼ lb., \$4.00; 1 lb., \$15.00.
Early Grenadier (Novelty). This is the most brilliant Sweet Pea yet produced. A truly early, everblooming type of robust habit. The color may best be described as a glowing poppy scarlet. Per oz., \$2.00; per ¼ lb., \$6.00.
Improved Snowstorm. This is by far the finest of all white winter-flowering varieties, Per oz., 75c; ¼ lb., \$2.50; 1 lb., \$8.00.
Mrs. Kerr (Novelty). The first early flowering salmon. Created a sensation when exhibited at the great International Flower Show in New York, March, 1921; also at the National Flower Show, Indianapolis, Ind., 1922. Per oz., \$2.00; ¼ lb., \$6.00.
Glitters. A variety which is unique in itself; the color is a bright flery orange salmon. Per oz., \$1.25; ¼ lb., \$4.00: 1 lb., \$15.00.
